3) Determination of Year-Level.

- a.) For AUSL original enrollees, the year-level of each student has already been pre-determined based on the subjects and units *taken and passed*.
- b.) For transferees already on board, the determination of the year-level will depend on the available official documents submitted to the Registrar's Office upon enrollment, and for subjects in the prior school, credited by the AUSL Dean's Office.
- c.) For incoming transferees, after going through the admission process, the Admissions Office will call you on the date and time of your enrollment. Your year level shall be tentative as First Year until the official transcript of records from the previous school is submitted.
- d.) For irregular students, determination of current year level in the portal requires that all subjects for the prior year level are reflected as **taken and passed**. It is the student's obligation to follow sequencing and pre-requisite subjects under the approved AUSL curriculum.

4) Application for Additional Subjects for Manual Enrollment.

- a.) Students will enlist based on their year-level provided in the student portal. In the online enrollment, the student shall be given the list of subjects to which he/she can enroll based on the year-level indicated. If the student's choice of subjects is in the list, then enrollment is finalized.
